

## *2008/09 BUDGET CRISIS*

# **TIME IS RUNNING OUT FOR OUR SCHOOLS!**

Time is running out for our students and schools! With the new school year approaching, our students can't afford to wait any longer for a state budget. In order to open the door to learning, schools need the funding and resources to start the school year.

Help urge local Assemblyperson Todd Spitzer to put partisan politics aside and support the Conference Committee Budget Report, which closes tax loopholes and increases revenues to protect public education and other vital services.
